“In everything you do, put God first, and He will direct and crown your efforts with success.”

Integrated Montessori Center (IMC) is a non-sectarian, co-educational institution that offers preschool, grade school and high school education with its main building located in Fort Bonifacio, Taguig City. IMC was established in 1992 by Mrs. Angeli C. Cadungog in Jusmag Area Fort Bonifacio, Taguig City. From one preschool classroom of twenty students, it now has IMC Diego Silang in AFPOVAI Village which offers preschool and grade school. In fulfilling its battle cry “Onward to Excellence,” the newly built IMC Bayani Branch building is now the IMC High School which houses its high school department.

The integration of the Montessori approach with other teaching approaches, inclusion of the Singapore books and relevant learning materials in English, Math and Science enable the IMC student to excel academically. Evidently, its alumni are admitted and have graduated with honors from top universities in the country such as University of the Philippines, Ateneo de Manila University, De La Salle University and University of Santo Tomas.

For more than 25 years, IMC has continuously progressed and remain steadfast in facing the challenges that confront the Philippine educational system. For these and its remarkably closely-knit community, IMC is a wonderful place to learn and come home to.

PRESCHOOL

CREATIVITY

The school engages the child's inborn curiosity through materials that encourage creative development. IMC provides a joyful, spontaneous learning environment wherein the child learns and expresses himself in his individual way.

SOCIALIZATION

Students are engaged in individual or group activities that permit independent development, cooperative learning, and allow children to teach one another, spontaneously sharing their knowledge with classmates.

SELF-CONFIDENCE

The Montessori environment helps children acquire self-confidence by building on their interests, nurturing their enthusiasm and making activities available that fit their individual needs.

GRADE SCHOOL

SELF-RELIANCE

The goal is to teach each pupil the essential characteristics and behavior in achieving the highest level of self-confidence. This will help the child to be independent when engaging in competitive activities and be well-prepared in any undertaking in order to live as responsible adults in the future.

LEADERSHIP

Every child at IMC is educated as a unique individual. Thus, the school aims to provide pupils with the vital elements needed for the development of their full potential. Each is given opportunities to lead and influence others to accomplish an objective and to achieve excellent proficiency in different learning areas.

HIGH SCHOOL

BALANCED EDUCATION

Students collaborate with the teacher to guide them in their required work, to balance their general work, and to teach them to become responsible for their own time-management and education.

VALUES ORIENTATION

Education of character is considered equally with academic education. These young adults learn to take responsibility not just for themselves but also for their immediate environment while taking on a mature perspective on life and education.
